

# The Winning Combination

**Cleaner...  
Safer...Faster...  
Economical**

**IBIX®**  
NORTH AMERICA

**GMA GARNET GROUP**

*when your abrasive matters!*

## Revolutionary Surface Technology

The smallest blast system in America. IBIX lightweight, one man operation available with a convenient backpack. Perfect for complete on-board repairs, maintenance and below deck work, including ballast tanks, engine room, spot repairs, virtually every surface cleaning need in the shipping industry.

Available in 4 sizes with dual action wet and/or dry technology designed for hard to reach work spaces. Low dust emission, safe for the operator and crew.

## GMA Garnet Abrasive

A cost-effective alternative to silica sand, mineral slags and steel grits as the perfect symbiosis of grain size, density and hardness/durability creates the optimum abrasive efficiency-lowest abrasive consumption (lbs./ft<sup>2</sup>) at the highest production rates (ft<sup>2</sup>/hr).

**Recyclability** - GMA Garnet can be recycled 5 times or more without losing its superior cutting ability. Special garnet recycling systems are available upon request. These add up to natural clean and cost effective blasting.

*Low Dusting, High Productivity,  
Low Consumption, Superior Surface,  
Quality Improved Health & Safety  
and the Environment*
