

HP - Historic Preservation

Micro abrasion surface preparation systems designed specifically for non-destructive cleaning of historic structures, buildings and monuments for North America

Supplied exclusively by IBIX Surface Technologies, USA through

HP-3 Complete System

Manufactured to ASME Sec. VIII Div. 1 #41,779

HP-3-System: *Historic preservation micro abrasion non-destructive surface cleaning system*

Color: Green RAL 6024
Includes: Standard 3mm straight nozzle
 Standard gun including water shroud for dust reduction
 Standard 10 foot abrasive hose with quick connect
 Small filling funnel including sieve for media recycling

HP-3-Helix: *Helix gun including water shroud for dust reduction with patented rotational abrasion technology*

Includes: Standard 10 foot abrasive hose with quick connect

HP-3-Pen: *Detail pen for precision cleaning performance*

Includes: Standard 8.2 foot abrasive hose with quick connect

HP-3-NK *Pro Nozzle Kit*

Includes: 2mm straight nozzle
 4mm straight nozzle
 2.5mm conical wide spray nozzle
 4mm conical wide spray nozzle
 Abrasive hose fitting and nozzle holder for replacement

HP-3 recommended gasoline compressor

I-M2-G *IBIX Compressor M2 Pro Wheelbarrow*
Equipped with: Gasoline Honda Engine
 Twin tank two stage air compressor 17.2 cfm
 8 gallon tank

HP-3 recommended electro compressor

I-M2-E *IBIX Electro Compressor M2 Wheelbarrow*
Equipped with: 120 volt AC 1-phase engine 6.5 cfm
 8 gallon tank
(1 year manufacturer's warranty (according to warranty sheet))

HP-3 recommended accessories

CAH-3/8-50 *IBIX compressor air hose 3/8" 50 feet long with quick connect*

IBIX Mobile Lab® ST01 *A comprehensive, versatile & portable laboratory kit to analyze & diagnose historic building materials in an easy and clear manner*

The perfect tool for architects & contractors

IBIX exclusive non-destructive abrasives specifically for heritage conservation, approved for HP systems in compliance to manufacturer's warranty (see attached)
