

# PROJECT SPOTLIGHT

## TOO BIG FOR THE OVEN? PROBLEM SOLVED!

Powder coating certain items can surely have its limitations, when it comes to oven size. With the SPARTACUS flame spray system, that is no longer a concern. The SPARTACUS allowed the customer to apply a durable yet flexible, UV resistant, chemical-free, industrial grade coating on this steel light fixture that was too large for their oven. With the mobility and portability of the Spartacus, this customer can now offer their service and repairs at the job site.
