

Unlock important system information
by simply scanning your IBIX system QR code

Step 1:

Locate the QR code sticker on the back of your IBIX system

Step 2:

Using a smartphone, scan the QR code on your IBIX system

Step 3:

You'll be brought to our *IBIX* Product Support Portal where important and helpful information can be found, such as your system product manual, abrasive media guide, air requirements, informative videos and much more!

When using your IBIX system for your surface preparation project, we recommend starting with the lowest pressure setting available.

Test patching your surface preparation project is highly recommended. This will ensure the correct abrasive media has been selected for your surface preparation project. For more information on abrasive media options, please visit the Product Portal Support.
