PIPE & FIELD JOINT REPAIR

**New - IBIX 3 H<sub>2</sub>O**  
For Portable Surface  
Preparation & Weld  
Cleaning

## IBIX Revolutionary Standards of Engineering in Surface Technologies

Our Coating Systems, allow operators to coat joints and make repairs at the most challenging locations. Our system is the only one of its kind, capable of coating virtually any bend or angle, by liquefying polymer coatings. Designed for coating PE and PP bends, joints and buckle arrestors and standard pipes.

## IBIX Portable Cleaning & Blasting Systems

Our IBIX cleaning systems are made for blasting to SA 2.5 profile, prior to coating. Enhancing adhesion bond and preventing long term corrosion. The portable, light-weight, versatile IBIX system is a one man operation. A quick-click nozzle, saves time and money.

## IBIX Portable 3-in-1 Coating System

The first advancement in years, capable of providing perfectly smooth even coverage on any size pipe or bend. Using our portable thermal system allows you to service your customers needs in any location. Coatings adhere perfectly to factory finishes for joint applications. The benefit of using our flame system is to kill any microorganisms prior to coating.

## Green Abrasives & Polymers

All of our blasting materials and non-toxic polymer resins are 100% safe and regulatory compliant. Low dust emission make usage in busy industrial settings viable.

IBIX Coating  
Inside Oil &  
Gas Tanks

Polymer Coatings are  
Perfect for Coating  
Field Joint Bends.  
The Flame Liquefies  
Polymer, Bonding to  
Factory Coatings.

IBIX Systems are  
Specifically Designed  
for Tight Work Spaces  
and On-site Field  
Work Locations

Polymer Coatings  
are Perfect for  
All Pipe Bends

# Portable Coating System

## 3-in-1 System Featuring Maximum Corrosion Protection

The most portable, lightweight, versatile Coating System for on-site structural field work (Pipe Joint Coating). Our SPARTACUS® coating system is a one man operation. It offers various gun attachments with a quick click system for adjustments on the job.

Our SPARTACUS coating system was designed to work in the field for pipe coaters and structural coaters, who have to work in all conditions.

**The perfect Coating System for 3LPE & 3LPP Flame Spray Coating of...  
Field Joints...Pipe Bends...Buckle Arrestors...PP & PE Coating Repairs**

**Portable Lightweight Versatile One Man Operation**

Easy to Operate High Powder Flow Feeding System  
Many More Benefits Listed on the Reverse Side

### Dimensions

Width: 27.56 in (700 mm)  
Length: 25.59 in (750 mm)  
Height: 21.34 in (1050 mm)

High Flow Gun

Standard Gun

Small Gun

*Spartacus with  
Fluid Bed Tank  
for finer powders*

*Spartacus with  
Stainless Steel Tank  
(high powder flow)*

*Spartacus with IBIX  
Extruded Aluminum  
Pressure Tank*

**The First Technological Advance in the  
PIPE Coating Industry in years!**

1 Year Manufacturers Warranty

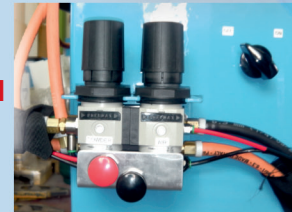

**High Flow Gun  
New Vortex  
System Available**

All Systems contain  
Pistol Grip for Precise  
Powder Control  
ON/OFF Trigger

**Hose/Gun  
Quick  
Connect/  
Disconnect**  
Large Wheels  
for Rough Terrain  
Field Operation

**Air & Media  
Control Panel**  
with Optional  
Belt Control  
Panel
